

Merry Christmas & Happy New Year!

### Healthy & Hopeful

Well, it certainly has been quite the year, hasn't it? "Healthy & Hopeful" is the frame of mind we have chosen to embrace here at **MOBO**...being thankful that we are all healthy and hopeful that the New Year will bring positive change.

While each of us contemplate a holiday season unlike any we have ever experienced before, let us above all, remain hopeful for a better norm in 2021.

Before turning the calendar page though we should take a moment to count our blessings in the here and now. The entire team want to thank all of you for your continued patronage, understanding and support.

This is our busiest time of year and for the first time ever, we are experiencing the realities of having had the supply chain closed for three months in the spring. Your patience and willingness to adapt when goods are unavailable or sold out has been so heartening to witness.

We are truly blessed to work with incredible clients who understand that sometimes it truly is out of our control. We will always strive to be a supplier that you can count on and be eager to refer to your friends and acquaintances through our unwavering commitment to quality service.

This year, despite COVID, we made the decision to scale up our business in 2020 by expanding our Digital Print Studio with much success and launch our NFC enabled promotional goods messaging system.

2020 was beyond all else, a year of innovation which we plan to continue to focus on. Our team continues to grow and we have some exciting new initiatives we will share with you in the New Year.

We hope to see many of you over the next month if the fates allow. If not, then please know that we are thinking of you, we are thankful for you and wish all of you a safe and happy Holiday Season and prosperous New Year!

- Team **MOBO**
